## PRYME™ ENTERPRISE SOFTWARE SOLUTIONS

Fully integrated Software Apps provide your business increased efficiencies by managing and communicating all regulatory and compliance workflows seamlessly between departments.

**INCIDENTS, ACTIVITIES, LOST & FOUND, RISK, BARRING/BANNING, INVESTIGATIONS, COMPLIANCE AND FLAGGING** tools are only some of the features within the Software Apps. We consult with you, learn more about your business requirements and by combining Software Apps from our **PRYME™** software service offerings, we create your desired outcomes.

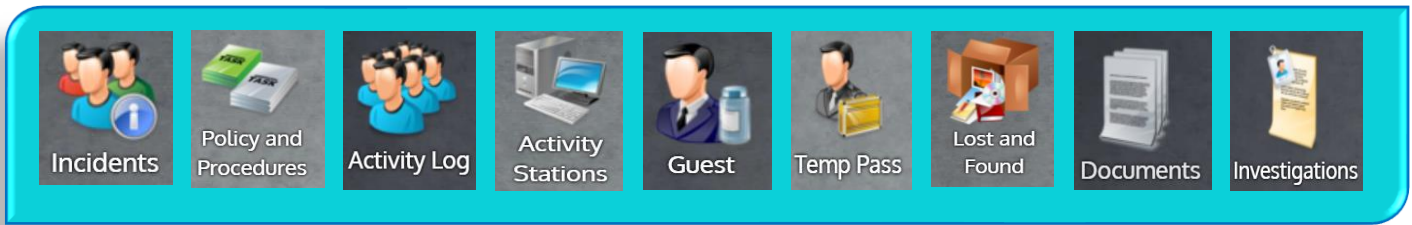

**PRYME™** is mobile friendly for people on the go. After logging into your secure portal, you may access, add, review, edit, submit approvals, denials, comment and/or send information.

We make the collection of sensitive information, flagging, dissemination and reporting of it seamless for your team to focus on compliance of regulations. The **PRYME™** fully integrated Software Apps communicate **REAL-TIME**.
